Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The prior art related to the assay of LPL to find inhibitors for slimming was discussed. It was suggested that Tinsdale in combination with Cook and Takada may make the independent claims obvious. Applicant's representative suggested that the use of triolein as the substrate for the assay is not suggested by the prior art. Ex. Hanley agreed to keep this in mind when addressing the claims for the reply to the response by Applicant.
